

Be part of the 25th year of the **Young Engineers & Scientists Program**

**July 19th
to
August 4th**

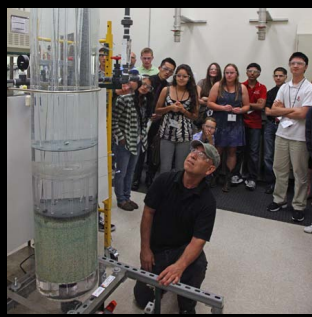

YES 2017

**work on
NASA
Projects**

**work with
ROBOTS**

You can participate in exciting research with no previous experience.

Apply for the Young Engineers and Scientists (YES) 2017 Program!

The YES Program consists of

- a summer session held at SwRI - July 19th— August 4th 2017
- a mentorship with a SwRI scientist or engineer to continue your project during the next school year
- benefits to get ahead in your college coursework and gain experience for a career in science and engineering

For more information visit our website: <http://yesserver.space.swri.edu>

For details, see your ISM Teacher or Counselor or Contact Greg Fletcher at 522-6269 (gffletcher@swri.org)

Applications due March 9th 2017

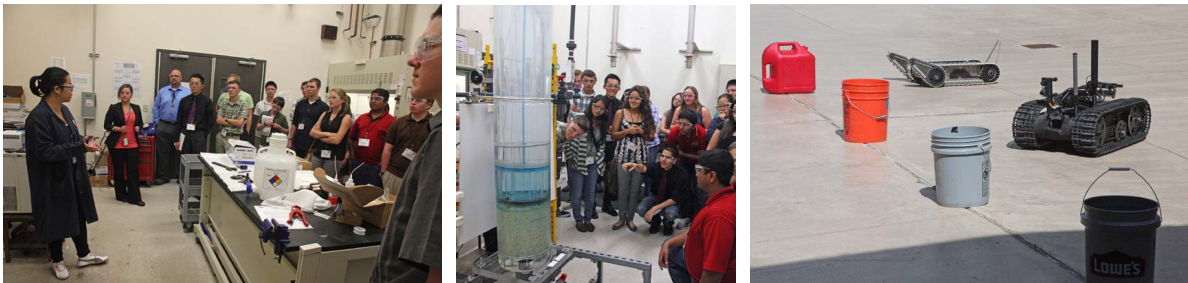

Apply for the Young Engineers and Scientists (YES) 2017 Program!

NISD ISM and the YES Program (*ignore for non-NISD school*)

- ISM is an Honors elective - sign up on your registration card under Language Arts
- Get a YES application from your ISM teacher or at our website:
<http://yesserver.space.swri.edu>
- You can be in ISM without being in the YES Program, but not vice-versa.

Projects may be chosen from many science and engineering fields:

- Astronomy, Chemistry, Physics, Space Science
- Electrical, Mechanical, Chemical, Civil Engineering
- Bioscience, Bioengineering (except Medicine)
- Environmental Science, Material Science
- Computer Science, Artificial Intelligence, Virtual Reality
- Video Processing, Computer Aided Design/Graphics
- Only limited by areas of research at SwRI and your imagination!

For more information visit our website: <http://yesserver.space.swri.edu>

For details, see your ISM Teacher or Counselor or
