YOUNG ENGINEERS & SCIENTISTS 2013
BUILD A ROBOT!
WORK ON NASA PROJECTS!
PROGRAM A “THINKING” COMPUTER!

YOU can participate in exciting research with no previous experience.

HOW?

Apply for the YOUNG ENGINEERS AND SCIENTISTS (YES) 2013 Program!

The YES 2012 Program consists of:

• A summer session held at SwRI during July 17 – Aug. 2, 2013.

• A mentorship at Southwest Research Institute to continue your project during the school year with a staff scientist or engineer!

• Benefits to get ahead in your college coursework and gain experience for a career in science and engineering!

Applications are due March 1st, 2013

Surf over to our website for more information:
http://yesserver.space.swri.edu

See your ISM TEACHER or COUNSELOR for Details or Contact DR. DANIEL BOICE at 522-3782 (dboice@swri.edu)
YOUNG ENGINEERS & SCIENTISTS 2013

NISD ISM and the YES Program (ignore for non-NISD schools):

* ISM is an Honors elective -- sign up on your registration card under Language Arts.

* Get a YES application from your ISM teacher or at our website:  http://yesserver.space.swri.edu.

* You can be in ISM without being in the YES Program but not vice-versa. ISM IS REQUIRED FOR ALL NISD STUDENTS!

Projects may be chosen from many science and engineering fields:

* Astronomy, Chemistry, Physics, Space Science

* Electrical, Mechanical, Chemical, Civil Engineering

* Bioscience, Bioengineering (except Medicine)

* Environmental Science, Material Science, NanoTechnology

* Computer Science, Artificial Intelligence, Virtual Reality

* Video Processing, Computer Aided Design/Graphics

* Only limited by areas of research at SwRI and your imagination!

The YES Program will begin its 21st year this summer! Be part of it!
